

APRIL 3, 2020 UPDATE:

Westchase Soccer Association (WSA) is continuing to monitor the COVID-19 pandemic and are following official guidance from government officials at the local, state and federal levels. We know that this is a complex and quickly evolving situation.

We are constantly monitoring and consulting with other organizations to ensure we are taking the appropriate actions. As promised, we will keep you updated as things continue to change. WSA looks forward to allowing the children to participate in soccer activities as soon as it is safe to do so. When the time comes, we will broadcast whether we can proceed with WSA's Spring soccer season.

As a global community, we are facing a time of unprecedented public health challenges. Westchase Soccer Association sincerely appreciates your continued cooperation. Together we will get through this!

Going forward, WSA will continue to post status updates that are relevant to our program so parents may check here at their convenience.

Stay safe,

Westchase Soccer Association
